

Rivet

Rivet is a fixating fabric which not only connects with the modern collaborative workplace, but also forms a bridge between textile traditions and future innovation. Designed to blend the aesthetic qualities of luxury woollen apparel with modern performance sportswear, Rivet is a lightly textured hopsack which emulates the swathe of suiting in a well-heeled synthetic. Made from 100% post consumer recycled polyester from used plastic bottles, Rivet celebrates Camira's 20 years' experience in designing and manufacturing recycled fabrics.
